The City of New Haven Youth Service Bureau (YSB) provides general technical and coordination support of policies and programs to City youth serving agencies which includes annual planning, grant support, data collection, budgeting, program reporting and evaluation of policy and programs for children and youth in New Haven. The (YSB) *does not* provide direct youth services.

The following are examples of programs the (YSB) coordinates and oversees:

The Summer Youth Guide is also distributed to local churches, city departments, community agencies and is posted on the City of New Haven's website.
